TYPES OF PAST SERVICE YOU CAN PURCHASE

(A) Service with an employer who contributed to the OPSEU Pension Plan, the Public Service Pension Plan (PSPP) or its predecessor:

This type of service includes periods of employment during which no contributions were made to the Plan (non-contributory service) and periods of service for which contributions were refunded.

The cost for buying back non-contributory service is based on the following formula:

Annual Salary Rate (at the time OPTrust receives your complete application)	X	Employee Contribution Rate (during the period you are buying back)	X	Years of pension service you are purchasing
---	---	--	---	--

For pension service that was refunded or transferred to an RRSP, the cost is based on the projected – or “actuarial” – value of the additional pension you will receive from OPTrust when you retire. If your purchase will allow you to retire sooner, this will be reflected in your cost, too. When you buy back this type of pension service, your employer does not make any matching contributions. The buyback cost goes up with increases in your age, years of membership, earnings, and early retirement eligibility.

(B) Leaves of absence during which contributions were not made

If you take an unpaid leave of absence of longer than one month and do not contribute to the Plan during your leave, you may apply to purchase this service after your return to work. This applies to leaves due to illness and WSIB, pregnancy, parental and adoption leaves, and leaves for special and educational purposes.

The cost to buy back pension service for illness and WSIB, and pregnancy, parental and adoption leaves is based on the formula above. For special and educational leaves, the cost is based on the employee contribution rate plus the employer contribution rate.

(C) Service with another registered Canadian pension plan

This type of service includes periods when you worked for an employer who did not contribute to the OPSEU Pension Plan, the PSPP or its predecessor. To buy back this type of service you must have been a member of your previous employer’s pension plan during the period you are purchasing, and that plan must have been registered under the *Income Tax Act*.

The Canada Revenue Agency (CRA) has established additional conditions for these purchases:

- For service prior to January 1, 1992, you must still have pension service in the prior plan for the service you are buying and transfer funds directly to the OPSEU Pension Plan.
- For service after December 31, 1991, CRA must approve your purchase. Your purchase will be approved in you have enough RRSP contribution room.

The cost for buying this type of service is based on the projected value of the additional pension you will receive from OPTrust when you retire.

(D) Open option buyback

If your application is outside the Plan’s normal 24-month window or you did not fully pay for an outstanding buyback within the 10-year, three month payment window, you can purchase service under the “open option buyback”. The cost to purchase service outside the window is based on the projected value of the additional OPTrust pension you will receive when you retire.

TRANSFERS

If you currently have pension service in your previous employer's pension plan and it has a "reciprocal transfer agreement" with the OPSEU Pension Plan, you may qualify for a transfer of pension service. These transfer agreements include: the Major Ontario Public Sector Pension Plans (MOPPs) portability agreement, the special arrangement between the OPSEU Pension Plan and the PSPP, and reciprocal transfer agreements with other pension plans.

Each agreement has specific eligibility criteria and application deadlines. If you provide the details of any service with another pension plan, OPTrust will check whether you qualify for a direct pension service transfer.

APPLICATION RULES

1. Application time limit. To take advantage of our normal calculation rules, you must complete and submit your *Application for Past Service* form to OPTrust **within 24-months** of:

- the start of your most recent period of membership in the Plan, or
- the last day of the leave of absence you are applying to buy back.

It is your responsibility to ensure that OPTrust receives your application form within the 24-month application time limit.

While the application form is the only document that must be received within the 24-month time limit, additional documents may be required to complete your application. We will inform you if additional documents are needed to complete your application. OPTrust cannot process your buyback until we receive all the required documents. If you apply outside the Plan's normal application window, please refer to the **open option buyback** above.

2. Calculating your application. It is your responsibility to ensure that OPTrust receives any supporting documents or other evidence required to complete your application.

3. Costing your buyback. One factor in the cost of your buyback is your salary rate on the date that OPTrust receives your *complete* application. A complete application includes this form, plus any required supporting documentation. You should ensure that OPTrust receives all the necessary documents as quickly as possible.

4. Liability. OPTrust is not liable for any increase in the cost of your buyback resulting from delays outside OPTrust or from revised salary information received after your *Agreement to Purchase Service* form is signed

5. Contact information. It is your responsibility to notify OPTrust immediately of any changes to your e-mail or home mailing address.

For more information on buying back pension service, please refer to our fact sheets *Buying Back Pension Service*, *Leaves of Absence and Your Pension* and *Open Option Buyback*. They are available online at **optrust.com**.
